MAGNETIC INCREMENTAL ENCODERS

SERIE MR

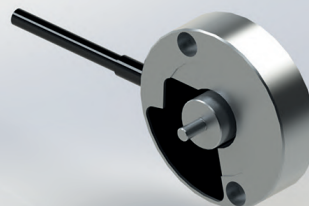

Enclosed assembly

- For applications under adverse ambient conditions (vibrations, humidity, dust...)
- Easy mounting between motor and machine / gear flange
- Protected and space saving

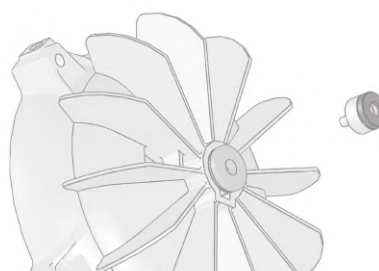

SERIE MIE

Compact & Non-contact system

- Easily mounted on the motor cover
- Magnet assembled on the motor shaft
- Compact dimensions (14mm)

Hohner Automation offers the possibility to customize products according to the customer needs, even for small series or samples.
