Assembly / Montaje / Montage / Montaggio / Montage

Depending on the shaft distances, the feather key may need to be cut for proper mounting.
 Dependiendo de las distancias del eje, es posible que la chaveta deba cortarse para realizar un correcto montaje.
 Die Passfeder muss ggf. gekürzt werden.
 A seconda delle distanze dell'albero, potrebbe essere necessario tagliare la chivetta per un montaggio corretto.
 Selon les distances avec l'arbre, la clavette peut devoir être raccourcie pour un montage correct.

MR105, MR120: M6, SW5 
 MR140, MR160: M8, SW6 

Note: Besure that the tightening torque used on the screws corresponds to its quality.
Atención: Asegúrese de que el par de apriete empleado en los tornillos corresponda a la calidad de éstos.
Achtung: Stelle sicher entspricht das an den Schrauben verwendete Anzugsmoment seiner Qualität.
Attenzione: Verificare che la coppia di serraggio utilizzata sulle viti corrisponda alla qualità delle viti.
Attention: Assurez-vous que le couple de serrage utilisé sur les vis correspond à la qualité des vis.
